Stagg EKG Pro Electric Kettle

The ultimate pour-over kettle, built for precision and control.

Designed for pour-over coffee perfection, Stagg EKG Pro gives you total control over every brew. Its precision spout ensures a smooth, steady pour at the optimal flow rate, while to-the-degree temperature control heats and holds water at your exact setting. Whether you're just starting out or honing your skills, this kettle helps you pour like a pro.

Key Features

Effortless precision

With to-the-degree temperature control and a quick heat time, Stagg EKG Pro heats water exactly when—and how—you need it. From a 205°F pour-over to a 180°F green tea, precision is always at your fingertips.

Pour like a pro

A precision gooseneck spout ensures a slow, controlled pour—enhancing saturation for balanced extraction and better-tasting coffee.

A pleasure to hold

An ergonomic handle that feels natural in your hand, offering a comfortable pour from the first drop to the last.

Tailored to your routine

Set it to start boiling right on time, keep your water hot for up to an hour, and fine-tune every detail—from chime volume to language and altitude. Stagg EKG Pro adapts to your day, exactly how you like it.
